## SUMMARY

Having completed my B.Tech degree, I am eager to learn from experienced professionals to further enhance my knowledge and skills. Interested in contributing to a collaborative team atmosphere and actively seeking the growth opportunities. Also interested in personal and professional development. Excited about the prospect of contributing to the success and future of the organization.

## EDUCATION

<b>Bachelor of Technology</b> <i>Meghnad Saha Institute of Technology</i> University: MAKAUT	2020-2024 Marks: 80.9%
<b>Higher Secondary Examination</b> <i>Rathipur Barada Banipith (H.S)</i> Board: WBCHSE	2019 Marks: 70%

## PROJECTS

### Personal Portfolio Website 🌐 | HTML5, CSS3, JavaScript, Python, SQL

- Designed and implemented a vibrant individual portfolio website to show all the details of myself and visitors can get in touch with me in order to ease discussion.
- The responsive design of the portfolio ensures optimal viewing on all devices, with a navigation menu for easy access to Home, About Me, Projects, Achievements, and Contact section.
- JavaScript is used to improve user engagement and create interaction.

### Blogging Website 🌐 | HTML5, CSS3, JavaScript

- Developed a Blogging Website using HTML, CSS and JS.
- This website provides a grid layout displaying multiple post cards with responsive design, each representing a blog post.
- Each post card includes an image, a category label, a title that links to the individual post page, a publication date, a short description of the post and a profile section with an author image and name.

### Fake Product Identification by QR using Blockchain 🌐 | Python, SQL

- Developed a system to detect fake products using Blockchain Technology using QR code.
- A registration and login page allows manufacturers and users to sign up and log in, with details stored in an SQL database.
- All product details are saved in the blockchain with proper timestamp and location details.
- After logging in, manufacturers can provide product details and generate a QR code, which users can scan to access those details.

## SKILLS

**Programming Languages :** JAVA | C | HTML5 | CSS3 | JavaScript | SQL | Python  
**Concepts :** DSA | OOP | DBMS | Data Warehousing | Computer Network | OS  
**Tools :** MS Office | VS Code

## CERTIFICATIONS 🌐

**HackerRank (JAVA, C, SQL) :** <https://www.hackerrank.com/dibyendu7in>  
**Solutions Architecture Job Simulation(AWS) at Forage :** <https://www.theforage.com/achievements>  
**freecodecamp (Responsive Web Design) :** [www.freecodecamp.org/certification](https://www.freecodecamp.org/certification)

## ACHIEVEMENTS

Participated in the interview process at SSB Bangalore for the selection of the SSC(IT) position in the Indian Navy.

## PASSIONS

UI/UX | Software Development | JAVA Development

**PLACE:** Paschim Medinipur, West Bengal, India
